

CAMBRIA®

GENSLER MIAMI OFFICE

MODERN VIBRANCE

For its hybrid office in Miami, FL, global design and architecture firm Gensler secured a space in 545wyn, a creative office and multi-tenant retail building in the hip Wynwood neighborhood of the city. Developed by Sterling Bay and designed by Gensler, 545wyn aims to authentically reproduce the vibrancy of Wynwood but also elevate the standard office experience for its tech-focused tenants.

PROJECT
Gensler 545wyn

LOCATION
Miami, Florida

Wellness room, Café Islands,
Café Perimeter, Washroom,
Design Lab

PIKES PEAK MATTE™ | MINNESOTA SNOW MATTE™
Gensler Product Design Consultant

CHALLENGE

To elevate and cultivate the Miami office experience while engaging with the vibrancy of the Wynwood neighborhood.

SOLUTION

By using design-forward, maintenance-free materials everywhere—from the wellness room and café to the design lab and washrooms—the designers created efficient, modern spaces that appeal to the tech-focused tenants and the community at large.

RESULTS

The team worked to create a dynamic work space with ample natural light and a variety of options for productivity at their offices in Miami. Cambria surfaces were crucial in creating a retreat above the hustle and bustle of daily life.

The Gensler Miami office is a sanctuary of natural design, so ecofriendly partnerships were a must. As an American-made company, Cambria is committed to aiding our community by limiting our carbon footprint through our domestic supply chain and cleaner transportation methods.

“The new office design palette includes light teak wood, soft whites and beiges, and a multitude of biophilia throughout the space; purposely calming in juxtaposition with the bright, vibrant colors of the neighborhood where Gensler Miami now calls home.”

Kelle Adams, Gensler Marketing Manager
